Terminology

BLUESTRIPE
FINANCIAL LTD.

MIC: Mortgage Investment Corporation as defined by the Canadian Revenue Agency (CRA)

Loan to Value (LTV): The primary risk metric in the mortgage industry. It represents the total loans owing divided by the value of the property (*at the time the mortgage was issued*). For example, assume a client has a property worth \$750k. The same client has a 1st mortgage of \$550k and a 2nd mortgage of \$35k. The LTVs would be as follows:

$$\begin{aligned}
 \text{1}^{\text{st}} \text{ Mortgage LTV:} & \quad \frac{\$550,000}{\$750,000} = \mathbf{74.00\%} \\
 \text{2}^{\text{nd}} \text{ Mortgage LTV:} & \quad \frac{(\$550,000 + \$35,000)}{\$750,000} = \mathbf{78.00\%}
 \end{aligned}$$

Annual Return: Always net to shareholder (i.e. after financial services fee).

Why Blue Stripe?

BLUESTRIPE
FINANCIAL LTD.

- ❖ In 2015 the Amur Financial Group investigated entering the unsecured lending segment (similar to MOGO, EasyFinancial, Progressa, Borrowell, the list goes on...).
- ❖ **The Conclusion:** Why lend unsecured when it is possible to lend to the same borrowers secured?
- ❖ Relative to Amur Financial Group's other investment funds, the loan parameters are more strict:
 - Loans are much smaller.
 - Credit history of client is more relevant.
 - Amortization of loan tends to be less than 15 years.
 - All properties must be residential.
 - Client requires proof of income.
- ❖ Since inception (November, 2015), the portfolio has yielded in excess of 14%.
